For expedient and efficient monitoring of our parking lots, all permits must be uniformly placed. Please ensure your permit is placed in the lower left corner of the front windshield. We would hate to tow your vehicle due to improperly placed permit.

There are no assigned spots. You may park in any available stall if your permit is properly displayed.

Due to the volume of residents moving in, the parking lots will not be monitored from August 15th through August 31st.

Parking lots are monitored by our staff on a regular basis however, it is not possible for us to monitor parking lots every hour. We rely on parking tenants to report any illegal parkers in the lot. In the event the lot is full and you have to find alternative parking, this cost will be at your own expense.

I have read, understand and signed this application.
